

TAMBOUR SHUTTER

Security for All Types of Cabinets and Counter Areas

Today's valuable retail space and compact cabinet designs underline the need for Dynamic's space saving Tambour Shutter.

The traditional side folding or coil-up are often awkward to work around or take up too much space.

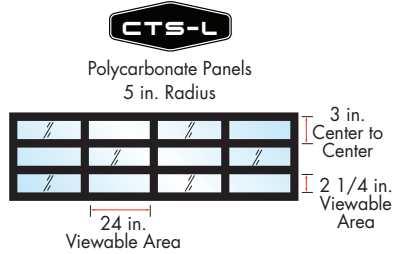

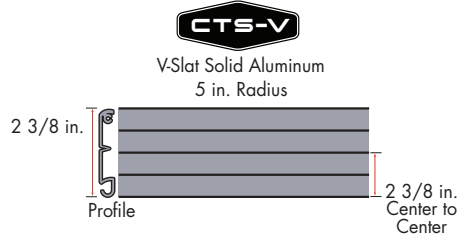

Dynamic Closures has designed our Tambour Shutter to work flawlessly within the cabinet – just like a roll top desk.

MODELS AND MATERIALS

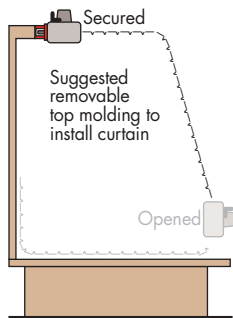

TYPICAL LAYOUTS

Showcase Cabinet Shutters are engineered to accommodate a radius of 5 in., 3 in. or as small as 1 in. Guides are not required, just provide the proper groove within the cabinet.

Hook Bolt with Wall Channel

LOCKING OPTIONS

Hook Bolt with Lock Channel

Shutter will have a Hook Bolt that engages into Lock Channel.

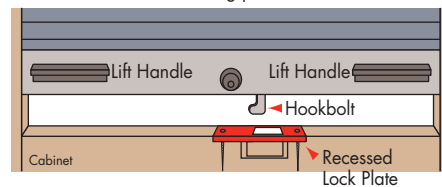

Throw Bolts Both Sides

Spring loaded Throw Bolts engage cabinet on both sides. An Astragal extends full length of bottom bar.

Hook Bolt with Recessed Cabinet Lock

A cleaner appearance is achieved by allowing Hook Bolt to lock into a recessed locking plate in the cabinet.
