

Crafting Value For More Than 60 Years

The Woodfold story

Our work reflects the way we live

We work lean

At Woodfold, we've embraced Lean Manufacturing, making better use of our space, precious raw materials, and each person's time. It's a constant process of improvement that ensures consistent quality.

Today we have the flexibility in our manufacturing processes to ensure the detail of hand finishing while maintaining the speed and flexibility of modern assembly and quality control.

We work clean

Monitoring and minimizing our impact on the environment has always been an important part of the Woodfold culture. One example is our conversion to water-based paints and stains that don't compromise on quality. As an employee-owned company, we take great pride and personal ownership in protecting the community in which we live.

We do the right thing

At Woodfold, we operate with the fundamental belief in doing the right thing, like using wood from sustainable forests in our products. As an employee-owned company, we strive to make a positive impact on our people, our community and the environment by increasing recycling, reducing waste, reducing our carbon footprint, and relentlessly reviewing how we can do better.

100% designed, sourced and manufactured in the USA by owner employees.

WOODFOLD

Accordion Doors

Create the space you need

From student housing and long-term care facilities to offices with break-out meeting rooms, we have the custom-built Accordion Doors to make the most of each space—reliably, beautifully, flexibly.

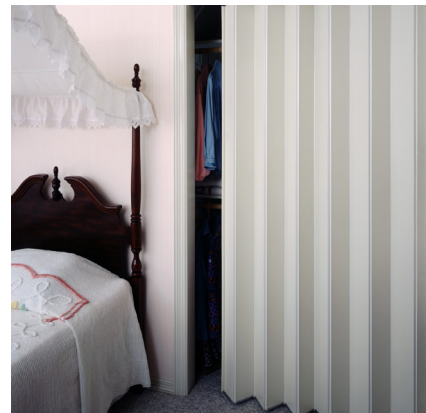

The great divide

What makes a Woodfold Accordion Door such a great choice to close off a space, or divide a larger room? It's the incredible range of materials

to choose from, including hardwood veneers, vinyls, aluminum, and acrylic. It's the marvelous array of finishes we offer to accent or

coordinate any room, such as color-matched paints and stains, or even clear acrylic, so you won't miss a thing on the other side.

But the beauty of a Woodfold door isn't only skin deep. It's also:

- Overhead suspension, with nothing to trip over
- Durable hardware for years of reliably smooth operation
- ADA-compatibility options
- Compact folded size to use minimal floor space
- Optional perimeter seal to help keep in heat and noise
- Optional perforated panels that allow airflow
- Optional locks and latches
- Curvable tracks/multiple meeting posts for unique installations
- Custom sizing for a perfect fit

Versatile solutions

Commercial/Residential

- Senior living projects
- Multi-family
- High-occupancy housing
- Long-term care

Woodfold space-saving doors fit any commercial or residential bill, in sophisticated hardwood finishes, solvent-free paints and stains, and a range of vinyl colors. Our single-sided Accordion Doors glide quietly in closet installations, while our double-sided doors are perfect for closing off galley kitchens and family rooms, or dividing open-plan commercial spaces to create meeting rooms. Hand-selected materials and unsurpassed hardware make our folding doors a beautiful investment for years to come.

Hospitality

- Hotels
- Conference centers
- Meeting spaces
- Religious facilities

If there's a place you especially want durability, low maintenance, and customizable size and color—it's hospitality installations. Flaunt your brand or brand colors with custom prints, color-matched paints and stains, colorful vinyls, or fine hardwood finishes. Our hand-crafted doors envelope customers in a soothing retreat that buffers them from the bustle and noise of common areas.

Security and Retail

Funeral Homes and Chapels

Religious Facilities

Education

- Multi-use areas
- Dorm closets and bathrooms
- Dining areas
- Kitchens/concessions

Flexible and sleek

Series 140

A popular choice when designing college dorms, assisted living facilities, and starter homes. Great for wardrobes, closets, or utility rooms.

- Finished front-side only
- Vinyl-Lam or veneer panels
- Fast installation
- Custom sizing to 8' wide
- Top-suspension mounting
- ADA compatible
- Magnetic latch

Series 220

Similar to our 140, but finished on both sides.

- Double-sided room divider
- Vinyl-Lam or veneer panels
- Custom sizing up to 8' wide
- Top-suspension mounting
- ADA compatible
- Magnetic latch

Series 240

For larger installations, the 240 can span any width, using meeting posts. It features many track and lock options to meet your needs.

- Double-sided doors
- Veneer or Vinyl-Lam panels
- Versatile, scalable, and durable
- Curvable tracks
- Locks and latches
- Multiple meeting posts
- ADA compatible
- Commercial-grade hardware

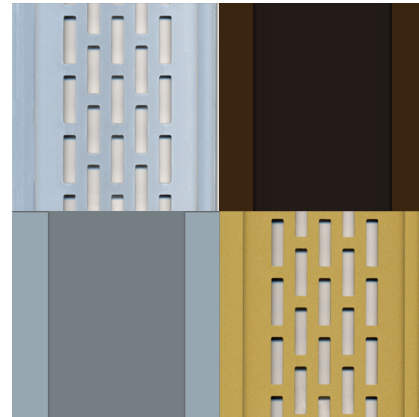

Specialty

Woodfold is proud to offer a vast range of textures, panel types, and finishes to suit any installation. Of course we custom match paint and stain colors on request. From the natural beauty of stunning

hardwood veneers for upscale restaurants to fun, bright, and durable vinyls in college dorms, there's a Woodfold Accordion Door that fits perfectly.

Natural hardwood veneers

We feature a wide range of the most popular hardwood species to match your interiors. Other woods are available through special order. Our select-grade veneers are laminated to an engineered core to ensure excellent dimensional stability.

Vinyl-Lam woodgrains

Incredibly realistic looking, our Vinyl-Lam woodgrain finishes represent many wood species, including Oak in three shades—Natural, Light and Dark.

Solid colors and textures

Our solid-color, multi-textured vinyls are not only durable, they complement the most popular interior palettes.

Logos, brands and murals

When you want to reinforce your brand, we can apply a custom designed and applied logo, trademark or corporate image on your Woodfold Accordion Door.

Acrylic panels

Available in 0.118" thick, transparent clear, or bronze acrylic panel from stock. Other panel options available by special quotation.

Alumifold panels

Available in 0.08" thick solid or perforated panels, in these stock finishes: bronze, silver or gold (upcharge applies). Other panel options available by special quotation.

Noise suppression

Series 2100

Our acoustic partitions use noise-dampening details to separate a noisier space from a quiet one, in offices, daycares, or assisted living facilities.

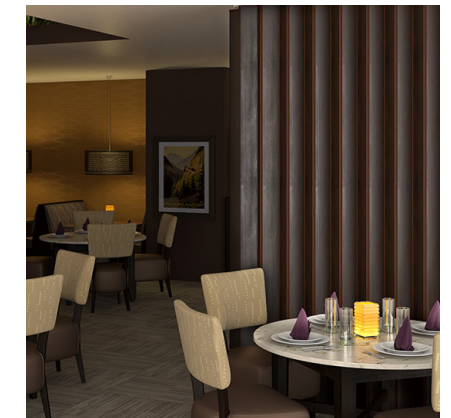

- Two-sided
- Overhead track mount
- Hardwood veneer or Vinyl-Lam panels
- Decorative wood moldings
- Steel hardware hinge system
- Custom sizing

Series 3300

This series is a popular choice for use in group rooms at religious facilities, offices, hotel meeting spaces, and restaurants. Each side of the door can be finished differently, to create two rooms with unique ambiances.

- Steel hardware hinge system
- Custom sizing
- Hardwood veneer or Vinyl-Lam panels
- Decorative wood moldings
- Top-suspension mounting
- Locks and latches

How we dampen the noise

Woodfold's 2100 and 3300 Series use a full-perimeter seal system to reduce sounds from room to room. The 3300 offers more noise-dampening with an acoustic lining inside its doors.

Sophisticated and reliable

Series 140

These one-sided doors close off closets or utility rooms, gliding on commercial-grade hardware for years to come.

- Finished front-side only
- Vinyl-Lam or hardwood veneer
- Fast installation
- Custom sizing up to 8' wide
- Top-suspension mounting
- ADA compatible
- Magnetic latch

Series 220

Finished on both sides.

- Double-sided room divider
- Vinyl-Lam or hardwood veneer
- Custom sizing up to 8' wide
- Top-suspension mounting
- ADA compatible
- Magnetic latch

Series 240

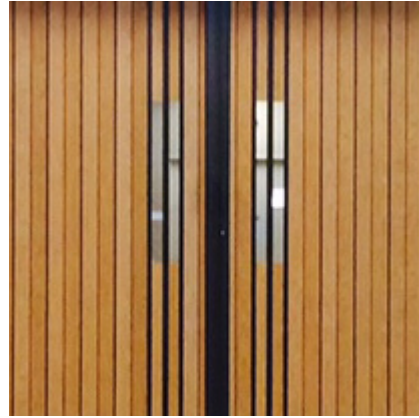

Designed for larger spans (any width), it can divide spaces in schools, homes, auditoriums, and shared hospital rooms.

- Double-sided doors
- Natural hardwood or Vinyl-Lam panels
- Versatile, scalable, and durable
- Curvable tracks
- Locks and latches
- Multiple meeting posts
- ADA compatible
- Commercial-grade hardware

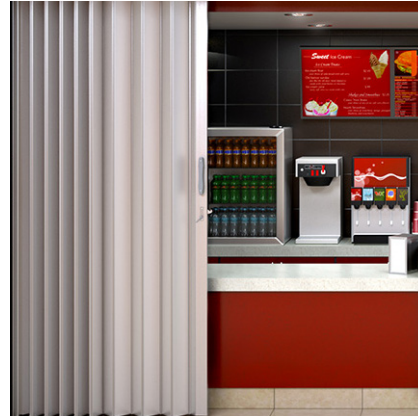

Protected and on display

Series 440

Our see-through doors allow window-shopping after hours, and offer a feeling of space, even when closed. For the moderate security needs of conference rooms and offices, concession stands, or gift shops in hotels.

- Two-sided
- Heavy-duty acrylic panels
- Also available in hardwood veneer and Vinyl-Lam
- Steel hardware hinge system
- Custom sizing
- Moderate security
- ADA compatible

Series 640

Designed to handle a range of installations that need securing, this series is popular for store fronts. The optional perforated panels make an ideal choice for rooms needing locks, but airflow, such as IT rooms.

- Steel hardware hinge system
- Custom sizing
- Solid or perforated aluminum panels
- Available in gold, bronze, or silver
- Top-suspension mounting
- Locks and latches
- ADA compatible

Series 740

Our easy-to-clean aluminum panels keep nursing stations looking tidy, and mall storefronts looking attractive. They also make sturdy coverage for convention center storage.

- Single-piece, extruded aluminum body panels
- Perforated or solid panels
- Versatile, scalable, and durable
- Locks and latches
- Multiple meeting posts
- Custom sizing
- ADA compatible

Series 540

This series can lock up a conference room, school office, or home office without walling it off in darkness. Maintain visibility while increasing security.

- Rigid PVC hinge, steel rod
- Natural hardwood veneer, Vinyl-Lam, or acrylic panels
- Versatile, scalable, and durable
- Custom sizing
- ADA compatible
